BULLETIN NO. 111 (Revised) Dec. 12, 2017

TO: Workers' compensation insurers and self-insured employers

SUBJECT: Computation of temporary disability, permanent disability,
and death benefits based on Oregon's state average weekly wage

EFFECTIVE: Jan. 1, 2018

This bulletin provides updated benefit rates based on the Oregon average weekly wage for 2017. The division is revising this bulletin to implement legislative and Oregon Administrative Rule (OAR) 436-060 changes to permanent total and death benefits that take effect Jan. 1, 2018, and to provide (new) Form 5332, "Notice to Beneficiary of Entitlement to Benefits." This bulletin replaces Bulletin No. 111 dated May 25, 2017.

I. STATE'S AVERAGE WEEKLY WAGE (SAWW) (ORS 656.211)

The SAWW affects the computation of most workers' compensation benefits for all injuries occurring on or after July 1, 1973, including temporary total disability, permanent partial disability, permanent total disability, and death benefits. This year, the SAWW has **decreased** by 1.149 percent, from \$974.20 to \$963.01. **Effective July 1, 2017 through June 30, 2018, the 2017 SAWW used to compute workers' compensation benefits is \$963.01.**

Benefits are calculated based on the SAWW in effect at the time of injury. The reduction in the SAWW applies to injuries on or after July 1, 2017. Benefits to workers injured before July 1, 2017, *should not be reduced* on July 1, 2017.

Compute benefits and benefit maximums based on the SAWW *in effect at the time of injury*:

- Temporary disability benefits for workers injured on or after July 1, 2017, will be subject to the maximum of 133 percent of the 2017 SAWW (\$1,280.80).
- Permanent partial disability benefits for workers injured on or after July 1, 2017, will be based on the 2017 SAWW (\$963.01).
- Permanent total disability benefits for workers injured between July 1, 2017 and Dec. 31, 2017, will be subject to the maximum of the 2017 SAWW (\$963.01).
- Permanent total disability benefits for workers injured on or after Jan. 1, 2018, will be subject to a minimum of 33 percent of the 2017 SAWW (\$317.79) and a maximum of 133 percent of the 2017 SAWW (\$1,280.80).

Death benefits and burial benefits for workers fatally injured on or after July 1, 2017, will be based on the 2017 SAWW (\$963.01). (Note: Effective Jan. 1, 2018, benefit amounts to all surviving children are calculated at 25 percent of the SAWW, except for children eligible under ORS 656.204(6)(b). See the addendum to Bulletin 377 for more information on processing benefit payments for existing claims.

Subsequent increases in permanent total disability and death benefits that are subject to reimbursement from the Retroactive Program of the Workers' Benefit Fund are established by the Workers' Compensation Division and described in the Retroactive Program bulletin issued each September.

II. TEMPORARY TOTAL DISABILITY BENEFITS (TTD) (ORS 656.210, 656.211)

Benefits to workers injured before July 1, 2017, should not be reduced on July 1, 2017.

This bulletin formerly referred to SAWW percentages as determining the maximum TTD rate. The SAWW determines maximum benefits payable during the fiscal year in which the injury occurs. However, benefit adjustments for subsequent years are determined by the *percentage increase*, if any, in the SAWW, and maximums are not limited to 80, 100, or 133 percent of the SAWW. See the attached chart: "Maximum Statutory Rates – Weekly."

- A. For workers injured July 1, 2017 through June 30, 2018, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$1,280.80). Workers employed in more than one job at the time of injury, who lose wages from one or more of the additional jobs, are eligible for supplemental temporary disability payments under ORS 656.210(2), but not more than the maximum statutory rate (\$1,280.80).
- B. For workers injured July 1, 2012, through June 30, 2017, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$1,295.69). Workers employed in more than one job at the time of injury, who lose wages from one or more of the additional jobs, are eligible for supplemental temporary disability payments under ORS 656.210(2), but not more than the maximum statutory rate (\$1,295.69).
- C. For workers injured Jan. 1, 2002, through June 30, 2012, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$1,297.62). Workers employed in more than one job at the time of injury, who lose wages from one or more of the additional jobs, are eligible for supplemental temporary disability payments under ORS 656.210(2), subject to the maximum statutory rate (\$1,297.62).
- D. For workers injured July 1, 1975, through Dec. 31, 2001, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the attached "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$975.66).

- E. For workers injured April 1, 1974, through June 30, 1975, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the attached “Average Weekly Wage” chart, applicable to the date of injury, subject to the maximum statutory rate (\$780.53).
- F. For workers injured July 1, 1973, through March 31, 1974, who are entitled to TTD benefits on or after July 1, 2017, compute the benefits in the following manner:
1. If the TTD rate was \$125.20, recompute the rate to 66 and 2/3 percent of the wage at the time of the injury, subject to the maximum statutory rate (\$780.53).
 2. If the TTD rate was less than \$125.20, **do not recompute the rate.**
 3. However, for workers whose TTD rate is below 80 percent of the July 1, 2015 maximum statutory rate (\$739.02), provide increased benefits available under the Retroactive Program, in amounts established by the Workers’ Compensation Division.
- G. When adjusting TTD benefits, apply the adjustment factors individually, with each succeeding increase compounding the prior increase as shown in the following example:

Date of injury: 7/15/2012

Worker’s weekly wage: \$1,400

Statutory TTD rate: 66 and 2/3 percent of \$1,400 = \$933.38 ($\$1,400 \times 0.6667$)

Multiply statutory rate by adjustment factors for subsequent years, starting 7/1/13 (i.e. 2.497% or 1.02497)

$\$933.38 \times 1.02497 \times 1.03028 \times 1.03828 \times 1.05617 \times 1.00000^ = \$1,080.87$ (payable if TTD due on or after 7/1/2017)*

** Do not include the 7/1/2017 decrease – use the factor 1.00000.*

III. PERMANENT PARTIAL DISABILITY (PPD) BENEFITS (ORS 656.214, 656.216)

Pay PPD benefits *for awards in excess of \$6,000* at 4.35 times the weekly TTD rate in effect at the time the determination is made.

- A. Pay PPD at the rates shown on the PPD chart in this bulletin.
- B. Claims with dates of injury between Jan. 1, 2000, and July 30, 2001, and closed in the same time frame with unscheduled PPD awards only in the second tier of the rate schedule in effect at that time were affected by an error in 1999 legislation. Those awards used a value of \$153.00 for calculating awards from 64.1 to 160 degrees. Legislation in 2001 addressed the problem by correcting the dollars/degree rate schedule from \$153.00 to \$267.44. On Sept. 27, 2001, the Workers’ Compensation Division issued an industry notice advising of the method to be used to compute subsequent awards. However, the notice did not explain how to compute subsequent awards that reduce prior awards affected by the error in the second tier. In such cases, reductions should be taken at the same rate they were granted. Only award reductions are affected by this clarification.

IV. PERMANENT TOTAL DISABILITY (PTD) BENEFITS (ORS 656.206)

Calculate the worker's PTD benefit by multiplying the worker's weekly wage by 66 and 2/3 percent. For injuries that occur before Jan. 1, 2018, the benefit must not exceed 100 percent of the SAWW in effect at the time of injury. For injuries that occur on or after Jan. 1, 2018, the benefit must not exceed 133 percent or be less than 33 percent of the SAWW in effect at the time of the injury. Multiply the total weekly benefit by 4.35 to arrive at the monthly benefit. PTD benefits are paid at the statutory rate until eligible to be modified by applicable Retroactive Program increases. Retroactive Program benefit levels are established by the Workers' Compensation Division and described in the Retroactive Program bulletin issued each September.

V. DEATH BENEFITS (ORS 656.204)

For injuries that occurred on or after April 1, 1974, compute death benefits based on the SAWW in effect at the time of injury. Any changes in the amounts payable depend upon Retroactive Program benefit levels established by the Workers' Compensation Division and described in the Retroactive Program bulletin issued each September. Death benefits payable to a surviving spouse, domestic partner, or children for injuries occurring on or after Jan. 1, 2018, are computed in the following manner:

- The monthly benefit for a surviving spouse or domestic partner is 4.35 times 66 and 2/3 percent of the SAWW, or \$2,792.87.

The monthly benefit to each child of a deceased worker who is under **19** years of age, or who is 19 to 26 years of age and completing secondary education, obtaining a general educational development certificate (GED), or attending a program of higher education is 4.35 times 25 percent of the SAWW, or \$1,047.27.* Benefits under ORS 656.204(6)(a) are payable any month in which the child attends one of the above activities for at least one day. See ORS 656.204(3)(a) and 656.204(6)(a).

- The total monthly benefits paid to eligible children shall not exceed 4.35 times 133 and 1/3 percent of the SAWW, or \$5,585.32. Benefits paid to the surviving spouse, or a child without a surviving parent, do not count toward the limit. See ORS 656.204(3)(b).
- The insurer or self-insured employer must send each child Form 5332, "Notice to Beneficiary of Entitlement to Benefits," at least 90 days before their 18th birthday, informing the child of their right to receive benefit payments directly under OAR 436-060-0075(4)(b), and of their entitlement to higher education benefits.
- The monthly benefit to a child or dependent with no surviving parent, who is completing secondary education, obtaining a general educational development certificate (GED), or attending a program of higher education is 4.35 times 66 and 2/3 percent of the SAWW, or \$2,792.87. Benefits are payable any month in which the child attends one of the above activities for at least one day. Eligibility for benefits ends when the child becomes 26 years of age.* See ORS 656.204(6)(b) and (c).

*Please refer to ORS 656.204 in order to determine benefit levels applicable to situations other than those described above.

Funeral expenses and final disposition of the body

The insurer must pay funeral expenses (including transportation of the body) and other expenses related to the final disposition of the body in an amount not to exceed 20 times the SAWW, or \$19,260.20. Any part of the benefit that remains unpaid sixty days after the date of the worker's death or the date of claim acceptance, whichever is later, must be paid to the estate of the worker.

Remarriage or domestic partnership allowance

Regardless of the date of injury or death of the worker, if a surviving spouse or domestic partner remarries or cohabits with another person for an aggregate period of more than one year and a child has resulted from the relationship, the surviving spouse is entitled to a final lump-sum payment, currently 36 times the spouse or domestic partner's monthly benefit. The monthly payments for each child shall continue as before.

¹ All monthly benefits being paid at the 10 percent level before Jan. 1, 2018, must be increased to 25 percent for benefits accrued on or after Jan. 1, 2018. See the Retroactive Program Bulletin for additional instructions on amounts payable.

² As of Jan. 1, 2018, benefits paid to the surviving spouse, or a child without a surviving parent, do not count toward the maximum.

³ See statute in effect on the date of injury.

PPD Benefits

Permanent disability awards are based on the date of injury as follows:				
Date of injury	Scheduled dollars per degree	Unscheduled dollars per degree		
		0 — 96 degrees	96.1 — 192 degrees	192.1 — 320 degrees
Prior to 1/1/92*	\$347.51	\$117.47	\$137.05	\$347.51
1/1/92 — 6/30/92	\$305.09	\$103.13	\$120.32	\$305.09
7/1/92 — 6/30/93	\$315.63	\$106.69	\$124.47	\$315.63
7/1/93 — 6/30/94	\$331.41	\$112.03	\$130.70	\$331.41
7/1/94 — 6/30/95	\$347.51	\$117.47	\$137.05	\$347.51
7/1/95 — 12/31/95	\$351.05	\$118.67	\$138.44	\$351.05
Date of injury	Scheduled dollars per degree	Unscheduled dollars per degree		
		0 — 64 degrees	64.1 — 160 degrees	160.1 — 320 degrees
1/1/96 — 12/31/97	\$420.00	\$130.00	\$230.00	\$625.00
1/1/98 — 12/31/99	\$454.00	\$137.80	\$243.80	\$662.50
1/1/00 — 12/31/01	\$511.29	\$153.00	\$267.44**	\$709.79
1/1/02 — 12/31/04	\$559.00	\$184.00	\$321.00	\$748.00
Date of injury	State average weekly wage	<p><i>Compute permanent partial disability (for claims with dates of injury on or after Jan. 1, 2005) based on the SAWW in effect at the time of injury.</i></p> <p><i>The terms “scheduled,” “unscheduled,” and “degrees” do not apply to dates of injury on or after 1/1/05. “Impairment” means the permanent, compensable loss of use or function of a body part or system expressed as a percentage of the whole person. Impairment benefits are based on the worker’s impairment and the Oregon (state) average weekly wage. “Work disability” means the separate computation of impairment as modified by factors for age, education, and adaptability to perform the job at which the worker was injured. Work disability benefits, if payable, are based on the worker’s impairment and wage at injury. (See ORS 656.214 for a more complete description.)</i></p>		
1/1/05 — 6/30/05	\$688.56			
7/1/05 — 6/30/06	\$712.96			
7/1/06 — 6/30/07	\$721.43			
7/1/07 — 6/30/08	\$756.80			
7/1/08 — 6/30/09	\$790.38			
7/1/09 — 6/30/10	\$800.60			
7/1/10 — 6/30/11	\$819.38			
7/1/11 — 6/30/12	\$842.52			
7/1/12 — 6/30/13	\$841.26			
7/1/13 — 6/30/14	\$862.27			
7/1/14 — 6/30/15	\$888.38			
7/1/15 — 6/30/16	\$922.39			
7/1/16 — 6/30/17	\$974.20			
7/1/17 — 6/30/18	\$963.01			

* Claims with dates of injury before 1/1/92 and closed before 6/7/95 were paid at the rate in effect at the time of injury for the PPD granted under that closure. Use the amounts shown on this chart to calculate **only additional PPD amounts** granted by any closure on or after 6/7/95 in claims with dates of injury before 1/1/92.

** These rates previously reflected a transposition error affecting the middle tier (established by ORS 656.214, effective 1/1/00), which was corrected by Senate Bill 485 (2001). The corrected rates apply to all awards made on or after 7/31/01. The **total PPD award** should be recalculated using these rates. Any resulting (corrected) increase would be granted; decreases would not affect awards that are final by operation of law.
