BULLETIN NO. 111 (Revised) May 25, 2017

TO: Workers' compensation insurers and self-insured employers

SUBJECT: Computation of temporary disability, permanent disability, and fatal benefits based on Oregon's average weekly wage

This bulletin provides updated benefit rates based on the annual Oregon average weekly wage for 2016. This bulletin replaces Bulletin No. 111 dated May 19, 2016.

Note: This bulletin will be revised before the end of 2017 to implement legislative changes to permanent total and fatality benefits that take effect Jan. 1, 2018.

I. STATE'S AVERAGE WEEKLY WAGE (SAWW) (ORS 656.211)

The SAWW affects the computation of most workers' compensation benefits for all injuries occurring on or after July 1, 1973, including temporary total disability, permanent partial disability, permanent total disability, and fatal benefits. This year, the SAWW has **decreased** by 1.149 percent, from \$974.20 to \$963.01. **Effective July 1, 2017, the SAWW used to compute workers' compensation benefits is \$963.01.**

Benefits are calculated based on the SAWW in effect at the time of injury. The reduction in the SAWW applies to injuries on or after July 1, 2017. Benefits to workers injured before July 1, 2017, ***should not be reduced*** on July 1, 2017.

Compute benefits and benefit maximums based on the SAWW ***in effect at the time of injury***:

- Temporary disability benefits for workers injured on or after July 1, 2017, will be subject to the maximum of 133 percent of the 2016 SAWW (\$1,280.80).
- Permanent partial disability benefits for workers injured on or after July 1, 2017, will be based on the 2016 SAWW (\$963.01).
- Permanent total disability benefits for workers injured on or after July 1, 2017, will be subject to the maximum of the 2016 SAWW (\$963.01).
- Fatal benefits and burial benefits for workers fatally injured on or after July 1, 2017, will be based on the 2016 SAWW (\$963.01).

Subsequent increases in permanent total disability and fatal benefits that are subject to reimbursement from the Retroactive Program of the Workers' Benefit Fund are established by the

Workers' Compensation Division and described in the Retroactive Program bulletin issued each September.

II. TEMPORARY TOTAL DISABILITY BENEFITS (TTD) (ORS 656.210, 656.211)

Benefits to workers injured before July 1, 2017, should not be reduced on July 1, 2017.

This bulletin formerly referred to SAWW percentages as determining the maximum TTD rate. The SAWW determines maximum benefits payable during the fiscal year in which the injury occurs. However, benefit adjustments for subsequent years are determined by the *percentage increase*, if any, in the SAWW, and maximums are not limited to 80, 100, or 133 percent of the SAWW. See the attached chart: "Maximum Statutory Rates – Weekly."

- A. For workers injured July 1, 2017 through June 30, 2018, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$1,280.80). Workers employed in more than one job at the time of injury, who lose wages from one or more of the additional jobs, are eligible for supplemental temporary disability payments under ORS 656.210(2), but not more than the maximum statutory rate (\$1,280.80).
- B. For workers injured July 1, 2012, through June 30, 2017, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$1,295.69). Workers employed in more than one job at the time of injury, who lose wages from one or more of the additional jobs, are eligible for supplemental temporary disability payments under ORS 656.210(2), but not more than the maximum statutory rate (\$1,295.69).
- C. For workers injured Jan. 1, 2002, through June 30, 2012, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$1,297.62). Workers employed in more than one job at the time of injury, who lose wages from one or more of the additional jobs, are eligible for supplemental temporary disability payments under ORS 656.210(2), subject to the maximum statutory rate (\$1,297.62).
- D. For workers injured July 1, 1975, through Dec. 31, 2001, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the attached "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$975.66).
- E. For workers injured April 1, 1974, through June 30, 1975, who are entitled to TTD benefits on or after July 1, 2017, adjust benefits using the adjustment factors shown on the attached "Average Weekly Wage" chart, applicable to the date of injury, subject to the maximum statutory rate (\$780.53).
- F. For workers injured July 1, 1973, through March 31, 1974, who are entitled to TTD benefits on or after July 1, 2017, compute the benefits in the following manner:
 - 1. If the TTD rate was \$125.20, recompute the rate to 66 2/3 percent of the wage at the time of the injury, subject to the maximum statutory rate (\$780.53).
 - 2. If the TTD rate was less than \$125.20, **do not recompute the rate.**

3. However, for workers whose TTD rate is below 80 percent of the July 1, 2015 maximum statutory rate (\$739.02), provide increased benefits available under the Retroactive Program, in amounts established by the Workers' Compensation Division.

G. When adjusting TTD benefits, apply the adjustment factors individually, with each succeeding increase compounding the prior increase as shown in the following example:

Date of injury: 7/15/2012

Worker's weekly wage: \$1,400

Statutory TTD rate: 66 2/3 percent of \$1,400 = \$933.38 (\$1,400 x 0.6667)

Multiply statutory rate by adjustment factors for subsequent years, starting 7/1/13 (i.e. 2.497% or 1.02497)

\$933.38 x 1.02497 x 1.03028 x 1.03828 x 1.05617 x 1.00000 = \$1,080.87 (payable if TTD due on or after 7/1/2017)*

** Do not include the 7/1/2017 decrease – use the factor 1.00000.*

III. PERMANENT PARTIAL DISABILITY (PPD) BENEFITS (ORS 656.214, 656.216)

Pay PPD benefits *for awards in excess of \$6,000* at 4.35 times the weekly TTD rate in effect at the time the determination is made.

- A. Pay PPD at the rates shown on the PPD chart in this bulletin.
- B. Claims with dates of injury between Jan. 1, 2000, and July 30, 2001, and closed in the same time frame with unscheduled PPD awards only in the second tier of the rate schedule in effect at that time were affected by an error in 1999 legislation. Those awards used a value of \$153.00 for calculating awards from 64.1 to 160 degrees. Legislation in 2001 addressed the problem by correcting the dollars/degree rate schedule from \$153.00 to \$267.44. On Sept. 27, 2001, the Workers' Compensation Division issued an industry notice advising of the method to be used to compute subsequent awards. However, the notice did not explain how to compute subsequent awards that reduce prior awards affected by the error in the second tier. In such cases, reductions should be taken at the same rate they were granted. Only award reductions are affected by this clarification.

IV. PERMANENT TOTAL DISABILITY (PTD) BENEFITS (ORS 656.206)

Calculate the worker's PTD benefit by multiplying the worker's weekly wage by 66 2/3 percent, not to exceed 100 percent of the SAWW in effect at the time of injury. Multiply the total weekly benefit by 4.35 to arrive at the monthly benefit. PTD benefits are paid at the statutory rate, until eligible to be modified by applicable Retroactive Program increases. Retroactive Program benefit levels are established by the Workers' Compensation Division and described in the Retroactive Program bulletin issued each September.

V. FATAL BENEFITS (ORS 656.204)

For injuries that occurred on or after April 1, 1974, compute fatal benefits based on the SAWW in effect at the time of injury. Any changes in the amounts payable depend upon Retroactive Program benefit levels established by the Workers' Compensation Division and described in the Retroactive Program bulletin issued each September.

Fatal benefits payable to a surviving spouse, domestic partner, or children for injuries occurring on or after July 1, 2017, are computed in the following manner:

- The monthly benefit for a surviving spouse or domestic partner is 4.35 times 66 2/3 percent of the SAWW, or \$2,792.87.
- The monthly benefits for each child of the deceased who is substantially dependent on the spouse or domestic partner for support is 4.35 times 10 percent of the SAWW or \$418.91, until such child becomes 18 years of age.*
- Children of the deceased, who are not substantially dependent on the surviving spouse or domestic partner for support, or who have no surviving parent, are entitled to monthly benefits paid in an amount equal to 4.35 times 25 percent of the SAWW, or \$1,047.27 for each child, until the child becomes 18 years of age.* See ORS 656.204(2)(c).
- While attending higher education, children or dependents of the deceased that have no surviving parent are entitled to monthly benefits paid in an amount equal to 4.35 times 66 2/3 percent of the SAWW, or \$2,792.87 for each child. Benefits are payable until the child or dependent becomes 23 years of age, ceases attending higher education or graduates from an approved institute or program, whichever is earlier. See ORS 656.204(8)(b).
- In no event shall the total monthly benefit paid exceed 4.35 times 133 1/3 percent of the SAWW, or \$5,585.32.

*Please refer to ORS 656.204 in order to determine benefit levels applicable to situations other than those described in ORS 656.204(2)(b) and (c).

Funeral expenses and final disposition of the body

The insurer must pay funeral expenses (including transportation of the body) and other expenses related to the final disposition of the body in an amount not to exceed 20 times the SAWW, or \$19,260.20. Sixty days after acceptance, any remaining unpaid portion of this benefit must be paid to the estate of the worker.

Remarriage or domestic partnership allowance

Regardless of the date of injury or death of the worker, a surviving spouse or domestic partner who remarries or enters into a subsequent domestic partnership, is entitled to an allowance, currently 36 times the spouse or domestic partner's monthly benefit, payable in a lump sum. The monthly payments for each child shall continue as before.

PPD Benefits

Permanent disability awards are based on the date of injury as follows:				
Date of injury	Scheduled dollars per degree	Unscheduled dollars per degree		
		0 — 96 degrees	96.1 — 192 degrees	192.1 — 320 degrees
Prior to 1/1/92*	\$347.51	\$117.47	\$137.05	\$347.51
1/1/92 — 6/30/92	\$305.09	\$103.13	\$120.32	\$305.09
7/1/92 — 6/30/93	\$315.63	\$106.69	\$124.47	\$315.63
7/1/93 — 6/30/94	\$331.41	\$112.03	\$130.70	\$331.41
7/1/94 — 6/30/95	\$347.51	\$117.47	\$137.05	\$347.51
7/1/95 — 12/31/95	\$351.05	\$118.67	\$138.44	\$351.05
Date of injury	Scheduled dollars per degree	Unscheduled dollars per degree		
		0 — 64 degrees	64.1 — 160 degrees	160.1 — 320 degrees
1/1/96 — 12/31/97	\$420.00	\$130.00	\$230.00	\$625.00
1/1/98 — 12/31/99	\$454.00	\$137.80	\$243.80	\$662.50
1/1/00 — 12/31/01	\$511.29	\$153.00	\$267.44**	\$709.79
1/1/02 — 12/31/04	\$559.00	\$184.00	\$321.00	\$748.00
Date of injury	State average weekly wage	<p><i>Compute permanent partial disability (for claims with dates of injury on or after Jan. 1, 2005) based on the SAWW in effect at the time of injury.</i></p> <p><i>The terms “scheduled,” “unscheduled,” and “degrees” do not apply to dates of injury on or after 1/1/05. “Impairment” means the permanent, compensable loss of use or function of a body part or system expressed as a percentage of the whole person. Impairment benefits are based on the worker’s impairment and the Oregon (state) average weekly wage. “Work disability” means the separate computation of impairment as modified by factors for age, education, and adaptability to perform the job at which the worker was injured. Work disability benefits, if payable, are based on the worker’s impairment and wage at injury. (See ORS 656.214 for a more complete description.)</i></p>		
1/1/05 — 6/30/05	\$688.56			
7/1/05 — 6/30/06	\$712.96			
7/1/06 — 6/30/07	\$721.43			
7/1/07 — 6/30/08	\$756.80			
7/1/08 — 6/30/09	\$790.38			
7/1/09 — 6/30/10	\$800.60			
7/1/10 — 6/30/11	\$819.38			
7/1/11 — 6/30/12	\$842.52			
7/1/12 — 6/30/13	\$841.26			
7/1/13 — 6/30/14	\$862.27			
7/1/14 — 6/30/15	\$888.38			
7/1/15 — 6/30/16	\$922.39			
7/1/16 — 6/30/17	\$974.20			
7/1/17 — 6/30/18	\$963.01			

* Claims with dates of injury before 1/1/92 and closed before 6/7/95 were paid at the rate in effect at the time of injury for the PPD granted under that closure. Use the amounts shown on this chart to calculate **only additional PPD amounts** granted by any closure on or after 6/7/95 in claims with dates of injury before 1/1/92.

** These rates previously reflected a transposition error affecting the middle tier (established by ORS 656.214, effective 1/1/00), which was corrected by Senate Bill 485 (2001). The corrected rates apply to all awards made on or after 7/31/01. The **total PPD award** should be recalculated using these rates. Any resulting (corrected) increase would be granted; decreases would not affect awards that are final by operation of law.
