Industry Notice

Dear health care providers:

The Workers' Compensation Division lists certified health care providers and their contact information on our Web site. This assists our customers in determining if a health care provider is able to treat workers' compensation patients. The health care provider listings are public information. It has been brought to our attention that the list contains some health care providers' personal home addresses and phone numbers. We obtained the information from the Statement of Certification or Nurse Practitioner Statement forms submitted by the provider, and would like to give providers the opportunity to revise their contact information.

Please review your contact information at www.oregonwcdoc.info, scroll down, and click on "List of certified providers." If you want to revise or update this information, please contact us at 503-947-7747. You can also send a written request to:
