2016 schedule

The concurrent workshops are designed with the audience's level of knowledge and area of interest in mind. "Basics of Workers' Compensation in Oregon" is a track for those new to Oregon or new to workers' compensation. Other tracks offer more advanced workshops to update and expand the knowledge of those with experience in their field. Our workshop tracks have been developed to help you find programs of interest based on your area of work and your level of professional experience. However, you are free to attend the workshops of your choice.

A = Relevant to All Attendees
