

The Worker's Compensation Information System (WCIS) project team has officially released the Request for Proposal (RFP) on [Oregon Buys](#) to solicit responses for a new software solution to replace our legacy systems. We anticipate the RFP evaluation committee will make a decision by early 2026, as the review process is lengthy and includes multiple rounds of evaluation, vendor demos of their solution, and contract negotiation.

We are excited to have reached this milestone and will continue to keep you informed as we learn about possible solutions and select a technology partner for the WCIS project. Sign up to receive updates [here](#) or reach out to the WCD Modernization Program team at WCD.Modernization@dcbs.oregon.gov with questions.
