(1) Unless otherwise stated in the trading partner agreement, an electronic record is sent when it:

(a) Is addressed or directed properly to an information processing system designated or used by the division to receive electronic records or information;

(b) Is in a form and format capable of being processed by that system; and

(c) Enters an information processing system outside the control of the sender or enters a region of the information processing system designated or used by the division and that is under control of the division.

(2) Unless otherwise stated in the trading partner agreement an electronic record is received when it:

(a) Enters an information processing system designated or used by the division to receive electronic records or information of the type sent and from which the division is able to retrieve the electronic record; and

(b) Is in a form and format capable of being processed by the division's information processing system.

(3) For the purpose of these rules, an electronic transaction is capable of being processed by the division's information processing system when all the required data elements are in the

form and format specified in these rules, in the proper sequence, and in accordance with the terms of the trading partner agreement.

(4) A reprocessed transaction retains the filing date of the original transaction.

436-160-0060 Testing Procedures and Requirements

(1) Proof of coverage testing:

(a) The director adopts the Oregon EDI Implementation Guide for Proof of Coverage as the standard for EDI testing procedures and requirements.

(b) Senders conducting EDI transactions as of January 1, 2009, do not have to complete EDI testing. Insurers using an approved EDI vendor to submit proof of coverage data to the department do not have to complete testing as provided by this rule.

(c) Senders must obtain director approval to submit proof of coverage data via EDI transactions. Each sender must successfully complete the Secure File Transfer Protocol (SFTP) test and the format and structure test(s) detailed in the Oregon EDI Implementation Guide for Proof of Coverage to demonstrate ability to successfully transmit coverage data in the format specified in OAR 436-160-0004. The director will notify senders once they have successfully completed testing. Insurers must either use an approved sender or be approved as a sender to report proof of coverage via EDI starting July 1, 2009. If an insurer is not an approved sender, it must report through an approved sender until approved by the director for direct reporting of proof of coverage via EDI.

(2) Medical bill data testing and transition to production:

(a) To initiate a test for EDI, the sender must contact the director.

(b) Each transmission for test purposes must conform to the standards specified in OAR 436-160-0004, or as otherwise identified in the trading partner agreement. Test files will be evaluated in terms of whether the data was sent in the correct, standardized format.

(c) To gain approval to send production transmissions, the sender must be able to:

(A) Transmit records via electronic data interchange; and

(B) Accomplish secure file transfer protocol uploads and downloads.

(d) The sender must demonstrate the ability to send transmissions to the director that are readable, in the correct format, and can be processed through the division's information

processing system. A successful EDI FTP test is determined by the resolution of any consistently recurring fatal technical errors identified by the division such that:

(A) Transmissions are sent to the director without structural errors;

(B) Transmissions are sent to the director without transaction level technical errors; and

(C) The sender can receive and process the automated EDI acknowledgement transactions.

(e) To move from test to production, 80 percent of the sender's transactions must have been accepted by the division by the end of the testing period, allowing for corrected and resubmitted transactions. The director will consider the sender's anticipated volume of production transactions to determine the number of transactions per test transmission required.

(f) Once approved, sender must maintain the accuracy as defined in subsections (d) and (e) of this section. Failure to meet technical requirements may result in additional testing requirements.

(g) The director will inform the sender and insurer (if different) if accuracy standards for technical requirements fall below standards prescribed in subsections (d) and (e) of this section during production.

(h) During the EDI test phase, insurer will not be required to file the same medical bill data via Bulletin 220. If the test phase is not completed satisfactorily, as detailed in (e) above, the insurer may be required to submit data for the period covered by the unacceptable test via Bulletin 220 standard, and then complete a new EDI test.

436-160-0070 Electronic signature

The sender's federal employer identification number (FEIN) plus its postal code as reported in the header record and stated in the trading partner agreement, if such an agreement is required, is the unique identifier that is the electronic signature for electronic data interchange.

Stat. Authority: ORS 656.726(4); **Stat. Implemented:** ORS 84.001-84.061 and ORS 656.264
Hist: Amended 6/12/08 as Admin. Order 08-059, eff. 7/1/08

436-160-0080 Acknowledgements

(1) Proof of Coverage:

(a) The director will respond to the sender with an electronic transaction accepted or transaction rejected acknowledgement of the insurer's transactions.

(b) The insurer must correct and resubmit any transactions rejected for which law or rule require filing, reporting, or notice to the director.

(2) Insurers are not required to resubmit reprocessed transactions.

(3) Medical Bill Data:

(a) The sender will receive both TA1 and 997 interchange and functional acknowledgements (as defined by ANSI X12N) for each medical bill batch submitted, unless

technical errors in the file prevent 997 processing. In addition, the sender will receive an 824 detailed acknowledgement (as defined by ANSI X12N) for each medical bill batch submitted, if the batch has successfully passed the 997 edits. An 824 detailed acknowledgment will contain transaction accepted (TA) or transaction rejected (TR) acknowledgement of all of the insurer's transactions in the batch.

(b) The insurer must correct and resubmit any transactions rejected for which law or rule require filing, reporting, or notice to the director.

Proof of Coverage

436-160-0300 Proof of Coverage Definitions

(1) Unless otherwise provided in these rules, the definitions and standards identified in OAR 436-160-0004 and OAR 436-160-0005 apply.

(2) For policies effective before July 1, 2009, the establishing document transaction types listed in OAR 436-160-0350(3)(c) can be used to file a guaranty contract under that rule. For policies effective on or after July 1, 2009, the establishing document transaction types listed in OAR 436-160-0355(2)(b) can be used to file proof of coverage. In Oregon, a reinstatement, an add location, and an add employer transaction type can also be an establishing document. A change policy number transaction type is not an establishing document.

Stat. Authority: ORS 656.726(4); **Stat. Implemented:** ORS 656.419, ORS 656.423 and ORS 656.427
Hist: Adopted 3/17/03 as Admin. Order 03-052, eff 4/1/03
Amended 9/17/08 as Admin. Order 08-062, eff. 7/1/09

436-160-0310 Proof of Coverage Electronic Filing Requirements

(1) The chart in Appendix "A" shows all proof of coverage data elements accepted via EDI in Oregon, and whether the data element is mandatory (M), conditional (C), or optional (O) for each transaction type.

(2) Unless otherwise provided in these rules, the data elements shall have the meaning provided in the data dictionary under OAR 436-160-0004.

(3) Transactions will be rejected if mandatory or required conditional data elements are omitted or submitted in a format that is not capable of being processed by the division's information processing system designated for proof of coverage transactions.

(4) Optional data element(s) in a transaction will be ignored if the optional data element is either omitted, or submitted in a format that is not capable of being processed by the division's information processing system designated for proof of coverage transactions.

(5) Unless otherwise provided in these rules, an insurer must transmit proof of coverage via EDI. Insurers may not submit paper documents to the director without the director's express permission or as provided in OAR 436-160-0350(7).

(6) Changes or corrections to proof of coverage transactions must be filed within 30 days of insurer knowledge of the change to a required data field.

(7) Professional employee organization (PEO) policies will be accepted via EDI, subject to the same data and transaction editing standards as other policies. A policy filing for a PEO does not eliminate the PEO's requirement to file worker leasing notices under OAR 436-050-0410.

(8) Wrap-up policies will be accepted via EDI, subject to the same data and transaction editing standards as other policies.

Amended 12-1-2009 as WCD Admin. Order 09-063, eff. 1-1-2010

436-160-0320 Proof of Coverage Acknowledgement

(1) The division will respond to transmissions submitted with either a transaction accepted or a transaction rejected acknowledgement. The division may, at its discretion, reprocess transactions.

(2) A transaction rejected acknowledgement will be sent for all transactions incapable of being processed by the division's information processing system, including, but not limited to:

(a) An omitted mandatory data element;

(b) An improperly populated data element field, e.g. numeric data element field is populated with alpha or alphanumeric data, or is not a valid value;

(c) Transactions or electronic records within the transaction which require matching and cannot be matched to the division's database;

(d) Illogical data in mandatory or required conditional field, e.g. termination date is before coverage effective date;

(e) Duplicate transmission or duplicate transaction within the transmission;

(f) Invalid triplicate code; or

(g) Illogical event sequence relationship between transactions, e.g. endorsement transaction submitted before a policy transaction is submitted.

(3) A transaction accepted acknowledgement will be sent for all transactions that are in a format capable of being processed by the division's information processing system and are not rejected pursuant to section (2) of this rule.

(4) An insurer's obligation to file proof of coverage for the purposes of this rule is not satisfied unless the director acknowledges acceptance of the transaction.

Stat. Authority: ORS 656.726(4); **Stat. Implemented:** ORS 656.264
Hist: Amended 12/3/03 as Admin. Order 03-064, eff. 1/1/04

436-160-0330 Proof of Coverage Effective Dates

(1) For policies with effective dates before July 1, 2009:

(a) For all binder or new policy establishing document transactions submitted under OAR 436-160-0350, the coverage effective date will also be the guaranty contract effective date.

(b) For all other establishing document transactions that meet the guaranty contract filing requirements of OAR 436-160-0350, the transaction set type effective date will also be the guaranty contract effective date.

(c) The policy expiration date submitted on a transaction does not terminate liability under a guaranty contract. Liability under a guaranty contract filed by an insurer continues until it is terminated under OAR 436-160-0360 and ORS 656.423 or 656.427.

(2) For policies with effective dates on or after July 1, 2009:

(a) For binder or new policy establishing document transactions, the policy effective date will also be the effective date of the proof of coverage for the reported entity(ies).

(b) For all other establishing document transactions, the transaction set type effective date will also be the effective date of the proof of coverage for the reported entity(ies).

(3) For reinstatement transactions the transaction set type date will determine whether the transaction reinstates the guaranty contract or reinstates proof of coverage shown by the reinstated policy. Transaction effective dates before July 1, 2009, will reinstate the guaranty contract, which will remain in effect until renewed, replaced by new coverage, or terminated by the insurer. Transaction effective dates on or after July 1, 2009, will reinstate the director's required proof of coverage through the reinstated policy, which will remain in effect until the policy expiration date or the date of cancellation, whichever is earlier.

(4) For all other transactions, the effective date will be the transaction set type effective date.

(5) For reissue, renewal, reinstatement, or endorsement transactions, the transaction effective date will be the transaction set type effective date submitted by the insurer.

Stat. Authority: ORS 656.726(4); **Stat. Implemented:** ORS 656.264, ORS 656.419, ORS 656.423 and ORS 656.427

Amended 9/17/08 as Admin. Order 08-062, eff. 7/1/09

436-160-0340 Proof of Coverage Changes or Corrections

(1) Changes or corrections to proof of coverage information must be submitted pursuant to the standards referenced in OAR 436-160-0004.

(2) To report changes or corrections of an insured employer's name or address, or other data elements, the insurer must transmit the appropriate transaction to specify what data is being changed or corrected.

(3) The insurer's policy number is used to assist in matching each transaction to the appropriate employer. When an insurer changes a policy number, the insurer must report that change with or prior to the next transaction submitted for that policy. Failure to report a change in the policy number will render future filings incapable of being processed by the division's

information processing system and the insurer will receive a transaction rejected acknowledgement.

(4) If changing a partner name of an insured or employer does not change the entity, a new guaranty contract or policy **proof of coverage** does not need to be filed.

(5) To add or delete coverage for corporate officers, members of a limited liability company, partners, sole proprietors or other non-subject workers, the insurer must file the appropriate "include" or "exclude" endorsement transaction to the associated policy filing.

436-160-0350 Guaranty Contract Filing Requirements

(1) This rule applies to coverage effective before July 1, 2009.

(2) For the purpose of these rules, an electronic guaranty contract consists of an executed trading partner agreement containing the guaranty described in subsection (3)(a) of this rule, and an accepted proof of coverage insured and employer electronic record.

(3) An insurer may file a guaranty contract via EDI by:

(a) Entering into a trading partner agreement with the director under OAR 436-160-0020 that contains a statement of assumption of liability and guaranty of payment under ORS 656.419(1);

(b) Transmitting an electronic record of the proof of coverage data elements identified as mandatory or required conditional under OAR 436-160-0310, including a unique FEIN for each legally distinct employer included in the establishing document transaction; and

(c) Transmitting an establishing document transaction: binder, new policy, renew policy, rewrite/reissue policy, reinstatement, add location, add employer, or add jurisdiction. A renew policy, add location, or add employer transaction will only establish a guaranty contract if the data elements have not previously been transmitted, the employer FEIN is not a duplicate per section (4) below, and coverage for that unique employer FEIN has not been previously established by the reporting carrier. A reinstatement transaction will only establish a new guaranty contract if there is a lapse in coverage and the requirements of ORS 656.419 and OAR 436-160-0350 are otherwise met.

(4) A duplicate FEIN or a FEIN previously reported under the same policy will be recorded as an additional employer location or an assumed business name, but will not establish an additional guaranty contract for effective dates of coverage before July 1, 2009.

(5) Reinstatement, rewrite, and reissue transaction types must follow a cancellation transaction.

(6) If an employer elects to include any non-subject worker(s) under coverage, or subsequently to exclude such workers from coverage, the insurer must submit a transaction with a reason code for including or excluding a corporate officer, partner, member, sole proprietor, or any other person.

(7) Insurers not approved to file guaranty contract information via EDI by December 31, 2008, must continue to file changes to existing guaranty contracts via paper on or after July 1, 2009.

436-160-0355 Proof of Coverage Filing Requirements

(1) This rule applies to coverage effective on or after July 1, 2009.

(2) An insurer may file proof of coverage via EDI by:

(a) Transmitting an electronic record of the proof of coverage data elements identified as mandatory or required conditional under OAR 436-160-0310, including a unique FEIN for each legally distinct employer included in the establishing document transaction; and

(b) Transmitting an establishing document transaction: binder, new policy, renew policy, rewrite/reissue policy, reinstatement, add location, add employer, or add jurisdiction.

(3) Reinstatement, rewrite, and reissue transaction types must follow a cancellation transaction.

(4) If an employer elects to include any non-subject worker(s) for coverage, or subsequently to exclude such workers from coverage, the insurer must submit a transaction with a reason code for including or excluding a corporate officer, partner, member, sole proprietor, or any other person.

436-160-0360 Guaranty Contract Terminations

(1) For the purposes of EDI, to terminate a guaranty contract when an insurer receives written notice of cancellation of coverage from an employer pursuant to ORS 656.423, the insurer must:

(a) Provide notice to the director no more than ten calendar days after the effective date of termination by transmitting the transaction type for cancellation by insured or nonrenewal by insured. The "transaction effective date" will be used to report the effective date of termination under ORS 656.423 or ORS 656.427;

(b) Retain the employer's written notice for inspection by the division; and

(c) Provide written notice to the employer under ORS 656.423 or ORS 656.427(1) and (3), if required.

(2) For the purposes of EDI, to terminate a guaranty contract for any other reason, the insurer must:

(a) Provide notice to the director no more than ten calendar days after the effective date of termination by transmitting the transaction type for cancellation, nonrenewal, or delete jurisdiction; and

(b) Provide written notice to the employer under ORS 656.423 or ORS 656.427(1) and (3), if required.

(3) The date of termination must be included in the written notice to the employer to terminate a guaranty contract. For the purposes of notice to the director, the transaction effective date is the termination effective date.

(4) A delete location transaction can be used to notify the director that one or more locations for an employer are no longer workplaces of the employer. This transaction does not meet the requirements of ORS 656.423 or ORS 656.427 for notice of termination.

(1) Provide notice to the director no more than ten calendar days after the effective date of cancellation by transmitting the transaction type for cancellation, delete jurisdiction, or delete location(s). The "transaction set type effective date" will be used to report the effective date of cancellation under ORS 656.423 or 656.427;

(2) Retain a record of the written notice sent to the employer under ORS 656.427 for inspection by the division; and

(2) Unless otherwise provided in these rules, the data elements must have the meaning provided in the data dictionary pursuant to OAR 436-160-0004.

(3) Transactions will be rejected if mandatory or required conditional data elements are omitted or submitted in a format that is not capable of being processed by the division's information processing system designated for medical bill transactions.

(4) Optional data element(s) in a transaction will be ignored if the optional data element is either omitted, or submitted in a format that is not capable of being processed by the division's information processing system designated for medical bill transactions.

436-160-0420 Medical Bill Acknowledgement

(1) The sender will receive both TA1 and 997 interchange and functional acknowledgements (as defined by ANSI X12N) for each medical bill batch submitted, unless technical errors in the file prevent 997 processing. In addition, the sender will receive an 824 detailed acknowledgement (as defined by ANSI X12N) for each medical bill batch submitted, if the batch has successfully passed the 997 edits. The detailed acknowledgement will indicate either a transaction accepted (TA) or a transaction rejected (TR) acknowledgement for each individual transaction.

(2) A TA1, 997, or 824 error will be sent for all transactions incapable of being processed by the division's information processing system, including, but not limited to:

(a) An omitted mandatory data element;

(b) An improperly populated data element field, e.g., numeric data element field is populated with alpha or alphanumeric data, or is not a valid value according to the standards adopted in 436-160-0004;

(c) Transactions or electronic records within the transaction which require matching and cannot be matched to the division's database, e.g., cancellation of an original bill that does not match on Unique Bill ID;

(d) Illogical data in mandatory or required conditional field, e.g., payment date is after reporting date;

(e) Duplicate transmission or duplicate transaction within the transmission;

(f) Invalid bill submission reason code; or

(g) Illogical event sequence relationship between transactions, e.g., cancellation transaction submitted before an original bill is accepted.

(3) A transaction accepted acknowledgement will be sent for all transactions that are in a format capable of being processed by the division's information processing system and are not rejected pursuant to section (2) of this rule.

(4) An insurer's obligation to file medical bill data for the purposes of this rule is not satisfied unless the director acknowledges acceptance of the transaction.

Oregon ASC X12 837 Medical Bill Reporting Requirements

1) Event reporting requirements:
   a. Original medical bills must be reported within 60 days of date paid.
   b. Denied bills for accepted claims must be reported within 60 days of date denied. Denied bills are defined as any bills in which there is a non-zero charge and a zero payment. The department will not reject denied bill transactions with invalid data values, such as invalid ICD-9 codes, if the Claim Adjustment Reason Code(s) indicate that the denial was due to invalid data values.
   c. Cancellations: Report immediately, as soon as payer knows that an original medical bill was previously sent in error.
   d. Replacement: Report within 60 days of:
      i) Payer knowledge of change in claim administrator, location of service, or provider type;
      ii) Payer action of paying an additional amount on a previously-reported bill; or
      iii) Payer receipt of an overpayment from a medical provider on a previously-reported bill.
2) Data reporting requirements: See "Medical Bill Data Element Requirement Table" below.
3) The data must include all payments made or denied during the previous 60 days for medical services.
4) Technical Requirements: See the Oregon Medical State Reporting Electronic Data Interchange (EDI) Implementation Guide for specifications on the Secure File Transfer Protocol (SFTP) requirements.
5) Data Quality: The director will conduct electronic edits for blank or invalid data. Affected insurers are responsible for pre-screening the data they submit to check that all the required information is reported, and is formatted correctly. See 436-160-0090, Acknowledgements, for a description of the acceptance/rejection protocol for all reported medical bills. The insurer is responsible for correcting and resubmitting all rejected transactions for which law or rule require filing, reporting, or notice to the director.
6) An insurer must request and receive authorization from the department to stop submitting a previously rejected transaction when the department determines the transaction is uncorrectable. The department may impose a civil penalty against the insurer when the insurer's number of uncorrectable transactions exceeds one percent of the insurer's total accepted transactions.

NOTE: M = mandatory; C = conditional element which becomes mandatory under the stated trigger; O = optional (must be reported if available)
