Subject: RE: Proposed rules affecting worker leasing

Addendum to written comments submitted yesterday, 4/27/18 relating to requirement for personal information for Leasing Application:

From the 9/22/17 transcription at 2:13:35, there are comments that include an admission of wanting to limit receipt of personal information (for example, social security numbers). The conversation continues at 2:19:40. I request you review the transcription and the committee's comments to determine the extent of necessary personal information, such as Date of Birth and home address on the leasing application.
