NEED FOR THE RULE(S)

The Workers' Benefit Fund (WBF) assessment rate has been established through rulemaking, and this rulemaking is needed to adjust the rate applied to hours worked in 2024. The WBF supports several important programs, including return-to-work incentive programs and a program that provides cost-of-living increases for some worker benefits. ORS 656.506(5), states in part, "The Legislative Assembly intends that the department set rates for the collection of assessments . . . in a manner so that at the end of the period for which the rates are effective, the balance of the Workers' Benefit Fund is an amount of not less than 12 months of projected expenditures from the fund in regard to the department's functions and duties . . ." The agency will propose an assessment rate it projects will continue to fund the WBF to a level exceeding 12 months of projected expenditures.

DOCUMENTS RELIED UPON, AND WHERE THEY ARE AVAILABLE

"Workers' Benefit Fund Assessment Rate Recommendation for CY 2025" (to be available by mid-September). These documents are available for public inspection upon request to the Workers' Compensation Division, 350 Winter Street NE, Salem, Oregon 97301-3879. STATEMENT IDENTIFYING HOW ADOPTION OF RULE(S) WILL AFFECT RACIAL EQUITY IN THIS STATE

The Workers' Compensation Division does not collect data about race or ethnicity related to workplace injuries and illness in Oregon, but the United States Bureau of Labor Statistics publishes lists of occupations and numbers of Americans employed broken down by race. Black/African Americans and Hispanic/Latino workers are represented in some of the more dangerous occupations in higher numbers than their respective shares of the U.S. workforce. To the extent Oregon workers in these racial groups suffer more on-the-job injuries and illnesses, increased or decreased workers' compensation benefits may impact these racial groups more than others. The agency does not have sufficient data needed to estimate specific effects on racial equity in Oregon, but invites public input.

FISCAL AND ECONOMIC IMPACT:

The agency director is required to maintain sufficient funds in the Workers' Benefit Fund (WBF) for not less than 12 months of projected expenditures. The agency will propose a rate it estimates will be sufficient to maintain at least a 12-month fund balance. The proposed WBF assessment rate will be announced by mid-September.

COST OF COMPLIANCE:

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s). (2) Effect on Small Businesses: (a) Estimate the number and type of small businesses subject to the rule(s); (b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s); (c) Estimate the cost of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

1) The Workers' Benefit Fund (WBF) supports several agency programs that benefit Oregon workers, employers, and insurers. Sufficient funding of the WBF ensures these benefits continue as provided by statutes and rules.

The WBF assessment is calculated by multiplying the number of hours worked by an employee by a fixed amount – 2.0 cents per hour in 2024. The employer deducts one-half of that amount from the employee's wages and contributes an equal amount along with a combined tax and assessment report form prescribed by the Oregon Department of Revenue.

The assessment rate needed to maintain sufficient moneys in the WBF is determined in part by the number of hours worked by Oregon workers. The agency relies on economic forecasts in its estimates of revenues to the WBF, as well as expenditures. The agency's review of economic forecasts cannot be completed before this filing. "Workers' Benefit Fund Assessment Rate Recommendation for CY 2024" will be available at the public rulemaking hearing, and will include forecasts of WBF revenues and expenditures.

The proposed WBF assessment rate will be announced by mid-September.

2)

a. Estimate the number of small businesses and types of business and industries with small businesses subject to the rule:

All subject employers are required to pay the Workers' Benefit Fund (WBF) assessment. Approximately 135,000 Oregon employers are subject to the WBF assessment. About 90 percent of employers are small businesses (50 or fewer employees).

b. Projected reporting, recordkeeping and other administrative activities required for compliance, including costs of professional services:

The agency projects a small cost for employers to adjust payroll systems to reflect any increase or decrease in the Workers' Benefit Fund assessment rate. The agency does not have data it can use to estimate the specific dollar impact of this adjustment.

c. Equipment, supplies, labor and increased administration required for compliance:

The agency projects that there will be no impact on equipment, supplies, labor, or increased administration required for compliance, with or without any adjustment in the Workers' Benefit Fund assessment rate.

DESCRIBE HOW SMALL BUSINESSES WERE INVOLVED IN THE DEVELOPMENT OF THESE RULE(S):

Small businesses have not been involved in determining whether to propose a change in the assessment rate. Any proposed revision will be based on an actuarial analysis of income to the Workers' Benefit Fund relative to outflows and the statutory requirement under ORS 656.506 to maintain funds sufficient for not less than 12 months of projected expenditures.

WAS AN ADMINISTRATIVE RULE ADVISORY COMMITTEE CONSULTED? NO IF NOT, WHY NOT?

The agency did not consult an advisory committee because any proposed change will be based on an actuarial analysis of income to the Workers' Benefit Fund relative to outflows and the statutory requirement under ORS 656.506 to maintain funds for no less than 12 months of projected expenditures.
