Subject: Re: Advisory Committee Meeting 6/9/26, OAR 436-015 MCOs
Date: Tuesday, June 9, 2026 8:26:28 AM

Dear Ms. Rogers; due to an unforeseen issue I will not be attending today. I also will not be able to log in. However; I have no suggestions or cogent thoughts about MCOs that would be helpful. On this issue, I think limiting care to Members of certain MCOs is discriminatory and does not serve the working community at all but limits their options for. Holding their care provider. My only input is that MCOs violate the patient's right to choose their provider. Since WC fees are set in stone anyway, this really renders the use of an MCO moot.

I hope that helps. See you next meeting.
