

Oregon Specific Codes 2022

Generally, providers should use billing codes that most accurately describe the service provided and are supported by the documentation in your chart notes. Oregon Specific Codes (OSC) should be used for services that are not otherwise described by a CPT® code (the primary billing codes). Use an appropriate HCPCS code if neither a CPT® nor an OSC describes the service accurately. The OSCs in the table below can also be found in our Oregon Administrative Rules, 436-009-0060.
