

## Technology Review

<b>Technology</b>	<b>Current Status</b>	<b>Review by MAC</b>
Lumbar artificial disc replacement	Non-compensable with exceptions	In progress (waiting for FDA long term outcomes)
Cervical artificial disc replacement	Non-compensable with exceptions	In progress (waiting for FDA long term outcomes)
Spinal cord stimulator	Compensable	In Progress. Report from subcommittee <sup>1</sup>
Platelet Rich Plasma Injection	Non-compensable	In Progress. Studies review by Subcommittee <sup>2</sup>
Prolotherapy	Non-compensable	Not planned
Surface EMG	Non-compensable	Not planned
Dimethyl sulfoxide (DMSO)	Non-compensable	Not planned
Intradiscal electrothermal therapy (IDET)	Non-compensable	Not planned
Rolfing	Non-compensable	Not planned
Thermography	Non-compensable	Not planned
Discogram	Compensable	Potentially in future
TENS	Compensable	Potentially in future
Nanotechnology	Compensable	Potentially in future
Stem Cell Technology	Compensable	Potentially in future
Diagnostic Ultrasound	Compensable	Potentially in future
BiOM Ankle System	Compensable	Concluded 2014

For August 4, 2017, MAC meeting

<sup>1</sup> Drs Craven, Strom, Ordonez, and Braddock

<sup>2</sup> Drs. Bowman, Lorber, and Strom
