<b>Total</b>	<b>67</b>	<b>124</b>	<b>89</b>	<b>85</b>	<b>97</b>	<b>61</b>	<b>523</b>	100%

These are claims that have a psychological and a physical condition.

DCBS Research is not able to determine which condition was denied for the partially accepted claims because denied conditions are not coded on a partially accepted claim. The scanned paperwork for every single case would have to be reviewed to determine which condition was denied. In these claims, it could be the psychological or the physical condition that is being denied.

The year is the setup year, not the date of injury.
