

All Current Non-Compensable Procedures

Under ORS 656.245(3), the director has excluded from compensability the following medical treatment. While these services may be provided, medical providers shall not be paid for the services or for treatment of side effects.

- Dimethyl sulfoxide (DMSO), except for treatment of compensable interstitial cystitis;
- Intradiscal electrothermal therapy (IDET);
- Surface electromyography (EMG) tests;
- Rolfing;
- Prolotherapy;
- Platelet rich plasma (PRP) injections;
- Thermography;
- Lumbar artificial disc replacement, unless it is a single level replacement with an unconstrained or semi-constrained metal on polymer device and:
 - The single level artificial disc replacement is between L3 and S1;
 - The injured worker is 16 to 60 years old;
 - The injured worker underwent a minimum of 6 months unsuccessful exercise based rehabilitation; and
 - The procedure is not found inappropriate under OAR 436-010-0230;
- Cervical artificial disc replacement, unless the procedure is a single level or a two level contiguous cervical artificial disc replacement with a device that has Food and Drug Administration (FDA) approval for the procedure.
